Uses and disclosures of your health information for treatment, payment or health care operations:

The following categories describe different ways we use and disclose health information. For each category of uses or disclosures we will explain what we mean and give some examples. Not every use or disclosure in a category will be listed. However, all of the ways we are permitted to use and disclose information will fall within one of the categories.

We may disclose health information about you to doctors, nurses, technicians, medical students, or other facilities personnel who are involved in taking care of you at or through our facilities. For example: We may share health information about you to arrange the different items or services that you may need, such as prescriptions, lab work, meals, home care and x-rays.

Payment: We may use and disclose your health information to bill and collect payment from you, your insurance company, or a third-party payor for the services you received. We also may tell your health plan about treatment that you are going to receive so your plan can decide if it will cover the treatment.

Our facilities also may share your information with other providers who are involved in your care for their payment purposes. For example, we may provide your insurance information to an ambulance company that picked you up from our facility or to another health care provider that we referred you to.

HIOs are required to use appropriate safeguards to prevent unauthorized uses and disclosures.

- You have two options with respect to HIE. First, you may permit authorized individuals to access your electronic health information through an HIO. If you choose this option, you do not have to do anything.
- Second, you may restrict access to your information through an HIO by submitting a request to opt out of HIE through Kansas Health Information Technology (KanHIT), by visiting KanHIT.org or calling the KanHIT Support Center at 785-296-0461. Even if you choose to restrict access, your information may still be exchanged via HIE for purposes that are required by law. Please understand if you choose to restrict access to your electronic health information through an HIO, your information will not be readily available through HIE in the event of an emergency.
- Additionally, choosing to opt out of permitting your information to be shared through an HIO will not have any effect on the other methods that we use to lawfully communicate your health information.
- If you receive healthcare services in a state other than Kansas, different rules may apply regarding restrictions on access and the exchange of your electronic health information. Please communicate directly with your out of state healthcare provider regarding those rules.
